Profile

I'm a third-year IT student at the University of Cape Coast with a growing passion for building useful and engaging websites. Experienced through personal projects, good at problem-solving, debugging, and collaborating on technical solutions. I'm always curious about how things work, and I enjoy solving problems through code. My goal is to become a full stack developer with strong frontend expertise and contribute to projects that make a real impact.

Education

B.Sc. Information Technology
University of Cape Coast | Expected Graduation: 2026

Skills

- HTML, CSS, JavaScript, React
- Git & GitHub for version control
- Problem-solving and debugging
- Windows OS & Linux proficiency

Projects

Restaurant Website – Designed and developed a fully responsive website using HTML, CSS, and React, focusing on accessibility and cross-device compatibility.
Blogger App – Created a clean and responsive user interface with React, allowing users to create, edit, and search blog posts.
